Bill4Time Mobile is Now Available for Android 4.0!

You asked, we answered!

Bill4Time Mobile is now compatible with all the latest Android phones! We have updated our software to run in Android 4.0 and 4.1. If you recently purchased a new Samsung Galaxy, HTC One, Motorola Droid, or any other Android phone, then tracking your expenses just got much easier.

Don't use Bill4Time Mobile yet? Revolutionize the way you manage your business. No more waiting until you get back to the office – log your billable hours as they occur, and never miss another minute. Check on your client records and projects instantly, whenever you need them. And when all is said and done, the Mobile App will automatically synchronize any changes with your online account.
