

New Website Release

We are proud to announce the launch of the new [Bill4Time website](#).

The newly re-designed website features a clean, crisp look with easy to access information including more detail about the many features and benefits offered in the Bill4Time [time tracking and billing](#) application, customer testimonials, customer logos, a simplified sign-up form, exciting Bill4Time network statistics and more.

“The new website goes hand in hand with the general performance improvement to the Bill4time software itself,” said Jeremy Diviney, president of Bill4Time. “We feel Bill4Time helps customers look professional and improve the way they run their business. Our goal was to design a site that conveys these core principles.”

We would love to hear what you think about the new bill4time.com. Let us know in the comments!
